ICA O Cooperative Arrangement for the Prevention of Spread of Communicable Disease through Air Travel (CAPSCA)

Introduction
Coordinating the international aviation response to public health risks, such as pandemics, is a key role for the International Civil Aviation Organization.

By means of CAPSCA, cooperative arrangements for the prevention of spread of communicable disease through air travel (International, regional, national and local organizations are brought together to combine efforts and develop a coordinated approach).

Whether your interest concerns aviation regulation, public health, aircraft or airport operations, this website will help you find the information you need.

CAPSCA Objectives
- Public Health Protection - general public, air travellers and aviation personnel;
- Assistance to States/Territories to establish national aviation pandemic preparedness plans, and:
  - adherence to Article 14 of the Convention on International Civil Aviation;
  - compliance with related ICAO SARPs (Annexes 6, 9, 11 and 14) and Procedures (PANS-ATM);
  - compliance with WHO IHR (2005) regulations; and
  - implementation of ICAO, WHO, ACI and IATA guidelines.
- Cooperation amongst civil aviation authorities, public health authorities, airports, traffic services, and airlines;
- Regional cooperation amongst States and Territories - a mechanism for pooling and sharing expertise and resources.
- Training of airport evaluators, evaluation of airports, development of core capacities, and provision of advice to States and Territories.
- Further development and improvement of guidelines for the aviation sector.

CAPSCA Assembly Resolution

The Assembly:

1. **Urges** Contracting States and Regional Safety Oversight Organizations to **ensure that the public health sector and the aviation sector collaborate to develop a national preparedness plan for aviation** which addresses public health emergencies of international concern and which is integrated with the general national preparedness plan;

2. **Urges** Contracting States to develop a national preparedness plan for aviation that is **in compliance with the World Health Organization International Health Regulations (2005)** and which are based on scientific principles and on the guidelines from ICAO and the World Health Organization;

3. **Urges** Contracting States, and Regional Safety Oversight Organizations as appropriate, to **establish requirements for the involvement of stakeholders such as airport operators, aircraft operators and air navigation service providers** in the development of a national preparedness plan for aviation; and,

4. **Urges** Contracting States to **join and participate in the Cooperative Arrangement for the Prevention of Spread of Communicable Disease through Air Travel (CAPSCA) project**, where available, to ensure that its goals are achieved, unless equivalent measures are already in place.
